ZIWEI WANG

Address: Toronto, ON M2N 0G5

Phone: 4168785182

Email: wangzw@my.yorku.ca

Objective

A Technical Process Analyst Co-op position with CIBC where I can contribute proven experience prioritizing workloads effectively, applied knowledge of relay programming and strong aptitude for learning new technologies.

Skills

- **Programming Languages:**C, Java, JavaScript, HTML, CSS, Python
- **Operating Systems**: Unix/Linux, Mac OSX, iOS, Android
- **Developer Tools**: MS Office, Eclipse, Android Studio, Vim, Visual Studio
- Fluent in English and Chinese

- Excellent time management skills. Ability to handle many responsibilities with a desire to learn new skills. Strong communication skills.
- Work effectively and efficiently with team members. Enjoy solving problem and passionate about knowledge

Project

- **Net-centric Introduction to Computing**   2019 Win

    Designed multiple web pages using HTML, CSS and JavaScript utilizing computational thinking, procedural programming, variables/control-flow constructs, event-handling, and test-driven development within a net-centric context taught in class.

- **Programming for Mobile Computing**   2019 Sum

    Designed Android app with object-oriented programming using Android Studio,and enhance the understanding of key computing skills such as reasoning about algorithms, designing user interfaces, and working with software tools.

- **Software Tools**   2019 Fall

    Programmed script using shell and C and learning about filters and pipes, version control, systems, debugging and testing.

Education

Honours Bachelor of Science, Computer Security, York University   Expected May 2021

- Currently in 2nd year
- Seeking work term 1

Relevent Course

- Net-centric Introduction to Computing
- Intro. to Logic for Computer Science
- Computer Organization

- Programming for Mobile Computing
- Intro. to the Theory of Computation
- Software Tools
